

Commercial IPM Workshop Agenda

University of Georgia Griffin Campus
 Urban and Structural Pest Management Program
 College of Agricultural and Environmental Sciences
 Griffin, Georgia
www.gabugs.uga.edu

“Simply stated, pest management is problem solving. It involves the collection of information, analysis of the data and development of a strategy to resolve the pest problem”

Richard D. Kramer
 Handbook of Pest Control, 9th Ed.

Time	Location	Topic	Instructor
9:00	Student Learning Center	German Cockroach Biology, Baiting, and Resistance	Dr. Daniel Suiter, Department of Entomology, University of Georgia, Griffin
9:45		Rodent Management in Restaurants (a webinar archive)	Dr. Robert M. Corrigan, RMC Consulting, New York, New York
10:30		Break	
10:45		Introduction to the Georgia Department of Agriculture and Regulating Commercial Pest Management (HPC & WDO)	Mr. Kevin Hancock, Georgia Department of Agriculture, Atlanta
11:30		Pest Fly Biology and Management in Restaurants	Dr. Nancy Hinkle, Department of Entomology, University of Georgia, Athens
12:15	Outdoor Patio	Lunch (provided)	
1:00	Blue Team: Training Facility Red Team: Flynt Building, Room 301	Commercial Kitchen Inspection: What You Can and Cannot Do in Commercial Kitchens Insect ID Lab: Key Pests Found in Georgia’s Restaurants	Dan Suiter & Kevin Hancock Ms. Lisa Ames, Department of Entomology, University of Georgia, Griffin
2:00		Groups Switch	
3:00		Course Evaluation and Course Credit	
3:15		Adjourn	

About the Instructors

Ms. Lisa Ames is Director, Department of Entomology, University of Georgia Insect and Weed Diagnostics Laboratory. Ms. Ames supports pest management professionals, county extension agents, and homeowners by providing accurate identification of pest insects and weeds and, where appropriate, providing suggested control measures. She is co-author of several of UGA's publications on urban pests, including *Stored Product Pest in the Home* (bulletin #1378) and *Management of Pest Insects in and Around the Home* (bulletin #1412). She is an expert on Georgia spiders.

Dr. Robert Corrigan has been active as a scientist in urban rodent control for several decades. He works as a consultant who specializes in addressing complex rodent issues on a national and international scale. Bobby was a member of the Purdue University Entomology Department for 16 years as a teacher and researcher in rodent control. His industry experience includes 3 years full time as a pest control technician in the New York City/Long Island area. He is the author or co-author of several books in pest control and has written over 150 articles addressing the control of rodents in many different situations. Bobby holds an A.A.S degree in pest control (SUNY), a B.S in urban entomology, and his master's and Ph.D. degrees in rodent control from Purdue University.

Mr. Kevin Hancock has been with the Georgia Department of Agriculture since 1998, and has worked as an Inspector. He received a B.A. in Biology from LaGrange College and a M.S. in Biology from Georgia Southern University. Kevin is certified in the categories of Wood Destroying Organisms and Household Pest Control in the state of Georgia.

Dr. Nancy Hinkle is Professor of Entomology at the University of Georgia in Athens, GA. She is a medical- veterinary entomologist who has a wide range of interests. Her research program has involved pest flies, mosquitoes, bloodsucking flies, human myiasis, biting midges, fleas, ticks, lice, mites, and other ectoparasites.

Dr. Daniel Suiter is Professor, Urban Pest Management Extension, Department of Entomology, University of Georgia in Griffin, GA. Dr. Suiter coordinates the training activities of the Structural Pest Control Training Center. Dr. Suiter provides support for the pest control industry in Georgia and the U.S. through his development of a comprehensive extension and research program on the biology and management of pest ants.
